

The Molinar Farm is part of an integral agro-ecological project that combines:

- An idyllic territory to isolate oneself from the world.
- A place to heal from daily stress,
- A place for learning with different itineraries offered both on the farm and in the surrounding area.
- A place to have fun
- An example of Agroecology, combining organic agriculture with extensive livestock farming.
- A bet against rural depopulation

Masía El Molinar

NATURALMENTE AUTENTICA

The track

The route consists of four itineraries, each with its own particularities. Agro-ecological route, river route, archaeological route... where you can enjoy a beautiful and immense landscape, fauna and flora, historical remains, tradition and customs of the region.

The therapy

The farmhouse offers psychological therapy and mentoring, and organizes personal work groups.

*A getaway that
combines culture,
history and nature.*

A Unique Heritage

NATURE

The area enjoys a great biodiversity of endemic, rare or endangered flora and fauna in a perfectly preserved landscape.

HISTORY AND CULTURE

There are historical findings and well-preserved archaeological sites.

On the way you will find several traces and archaeological and historical remains. Among cave paintings, fossils and remains of architectures, you will trace what history has left in its past.

GASTRONOMY

The gastronomy is distinguished by the quality of its meat, and by combining dishes with local products with mushrooms and truffles.
